SUBJECT: Prayer for Recognition, Development, Regulation and Promotion of the Electro-Homoeopathy (Electropathy) System of Medicine in West Bengal

Respected Sir/Madam,

WEST BENGAL ELECTROPATHY MEDICAL COUNCIL

We, on behalf of the West Bengal Electropathy Medical Council, respectfully submit that our Council was established in the year 2019 with the objective of promoting, developing and conducting educational and research-oriented activities related to the Electro-Homoeopathy (Electropathy) system of medicine.

Since its establishment, the Council has been working towards the development of this healthcare system through education, training, research and community-oriented healthcare activities, particularly with the objective of extending healthcare-related services to rural and economically weaker sections of society.

Representation to the Government

On behalf of the Council, we have approached and submitted representations to various concerned authorities of the Government of West Bengal and the Government of India, including the Department of Health & Family Welfare and the Ministry of AYUSH, regarding the development and appropriate recognition of the Electro-Homoeopathy system.

We have respectfully requested the Government to consider the recognition, development, regulation, research and promotion of Electro-Homoeopathy in West Bengal through an appropriate legal and administrative framework.

We have also requested that the Government may kindly consider a suitable regulatory mechanism for Electro-Homoeopathy, taking into consideration the existing framework and developments relating to Electropathy in other States, including Rajasthan, subject to applicable law and Government policy.

We sincerely hope that the Government of West Bengal will consider our representation sympathetically and take appropriate steps for the systematic development and regulation of this system in the State.

FREE HEALTHCARE SERVICE

An important part of our social and public-welfare activities is that we provide healthcare/treatment services completely free of cost to patients, particularly as part of our community and rural healthcare initiatives.

Our objective is to extend accessible healthcare support to people who may not be able to afford treatment and to contribute to the welfare of rural and economically disadvantaged communities.

ACADEMIC / ADMISSION PARTNERS

- Sikkim Skill University
- Asian International University

OUR VISION

Our vision is to establish a systematic, transparent, research-oriented and properly regulated framework for Electro-Homoeopathy in West Bengal.

We aim to contribute towards:

- Development of Electro-Homoeopathy;
- Research and academic activities;
- Skill development and training;
- Rural and community healthcare support;
- Free healthcare services for needy sections of society;
- Promotion of healthcare awareness and public welfare.

WEST BENGAL ELECTROPATHY MEDICAL COUNCIL

We respectfully request the Hon’ble Government to consider our representation and take appropriate measures for the recognition, development and regulation of Electro-Homoeopathy in West Bengal, in accordance with applicable laws, policies and Government guidelines.

We shall remain grateful for the kind consideration and necessary action in this regard.

Yours faithfully,

For

WEST BENGAL ELECTROPATHY MEDICAL COUNCIL

Dr. MD N Mondal
